4th Day of Treatment He is able to walk slowly.

" Picture taken on 4th Sept 2021
before using iTeracare device.
In excruciating pain due
to the size of lump increasing daily."

"Pic taken on 12th Sept
5 days after using iTeraCare device.
20% lump reduced
80% pain relieved."

" Pic taken on 29th Sept 2021.
22 days after using iTeraCare device.
30% lump reduced
90% pain relieved."

**Advanced Breast Cancer
Stage 4 Patient -**

**Bone Metastasis in Jan
2018.**

**She's better.
30% lump reduced
90% Pain Relieved**

Lost weight before using the iTeracare lots of sagging skin used
the iTeracare Classic on her left leg only none on the right leg and
as you can see the noticeable tightening of the skin. Another
iTeracare "Terahertz WOW Moment"
